Att: Mr Keith Palmer

Sir,

The South African Civil Aviation Authority (SACAA) wishes to advise you that after tests and safety considerations, the Landing Eyes retro Reflective Night Landing System, as presented by you, may be used as additional guidance for night landings for Categories 1 and II aerodromes. The system may also be used for emergency applications as back-up on abovementioned aerodromes.

Should any changes or improvements be done to the existing system, please advise this office for further consideration.

Regards

Louis Wood
